FOREWORD

The Defence Teaming Centre and Defence SA are proud to collaborate with an exciting group of South Australian based companies to showcase the breadth of capabilities of “The Defence State”, which includes manufacturing, engineering services, software, training and academia.

The Defence Teaming Centre is a leading defence industry member association, dedicated to growing and scaling Australia’s defence sector. We achieve this by connecting, developing and advocating on behalf of industry. Our focus is on building sovereign defence capabilities, increasing industry’s competitiveness in the global defence market, and fostering collaboration among Defence Primes, SMEs, academia, and service providers.

Defence SA is South Australia’s lead government agency for all defence matters. It provides

a single, focused and strategic contact point for interaction across the South Australian Government to create an environment where industry can thrive. Defence SA’s mission is the sustainable economic growth of the defence sector in South Australia.

The Defence Teaming Centre and Defence SA encourage you to learn more about the companies represented on The Defence State stand in the front half of this capability catalogue. Information on additional DTC members who were unable to attend the Land Forces International Land Defence Exposition can be found in the second half of the catalogue. Defence SA and Defence Teaming Centre welcome the opportunity to help you make new connections and forge productive industry partnerships.

CONNECTING, DEVELOPING & ADVOCATING FOR DEFENCE INDUSTRY

The Defence Teaming Centre (DTC) is a prominent industry association focused on growing and scaling Australia's defence sector. Through connections, development, and advocacy, we foster sovereign defence capabilities, enhance industry competitiveness in global markets, and facilitate networking and collaboration among the Defence Primes, SMEs, academia, and service providers across all Defence domains.

WHO WE ARE

Based in Adelaide, South Australia, we are a small team highly experienced in Defence and the defence industry. Our professional staff bring together Defence Primes, SMEs, academia and professional service providers to collaborate for defence market opportunities through a comprehensive calendar of events and development programs. Members receive facilitated introductions to key defence decision makers across the sector and advice on how to approach the defence market.

Our goal is to maintain a strong, sustainable and vibrant defence industry in Australia. We work closely with key defence stakeholders and governments to deliver services that align with this goal. Our members are continually evolving to meet the needs of Defence through our cost-effective training and development activities including our Defence Industry Leadership Program (DILP).

Our members cover the full range of products and services required to meet the needs of Defence across the multitude of sectors. The capability provided spans high end systems engineering and integration; advanced industrial manufacturing and precision components; design engineering and development; electronics engineering; development of new technology and products; fabrication and traditional manufacturing through to through-life support, facility construction, military base services and support for ADF personnel. Defence industry and member capabilities also include a range of supporting professional services such as specialist IP lawyers, immigration specialists, IT & cyber security service providers and other business support services.

WHAT WE DO

As a leading industry association, we are continually guiding and supporting defence industry to navigate through the evolving Defence landscape and win work in the defence sector. We do this by providing tailored services including market advice, coaching and professional development programs to create mature defence businesses across Air, Land, Sea, Space and Cyber.

We are passionate about the defence industry. Our informed advocacy brings Australia's defence industry and stakeholders together in a collaborative fashion to improve and grow industrial outcomes for the defence sector. We assist SMEs in their journey to becoming a Medium sized businesses by advocating for long-term sectoral stability and reducing the cost of doing business in Defence.

Our focus is the development of a policy landscape that supports a sustainable and cost-effective defence industry for Australia.

SOUTH AUSTRALIA THE DEFENCE STATE

South Australia is a hub of defence activity, underpinned by innovation, cutting-edge technology, and a highly skilled workforce.

Home to major defence companies with operations across the land, air, sea, space, and advanced systems and cyber domains, South Australia attracts major projects through our world-class infrastructure and dedicated state-of-the-art defence precincts. We have created a highly competitive business environment for both suppliers and investors.

South Australia has an advanced industrial base actively delivering specialist services and products to the Australian Defence Force and other Defence customers around the world. The breadth and depth of our capabilities can be explored at defencesa.com where you can see for yourself how South Australia is shaping the future of defence for the next generation and beyond.

**So when you think defence, think South Australia –
The Defence State.**

SOUTH AUSTRALIA

THE DEFENCE STATE

AEROBOND

AVIATION / DEFENCE / SPACE

AEROBOND Group is an advanced sustainment and manufacturing company working globally in the aviation, defence and space sectors.

AEROBOND Defence is partnering with KONGSBERG Defence Australia to produce launcher canisters for the KONGSBERG Naval Strike Missile (NSM).

AEROBOND GROUP EMPLOYS STATE-OF-THE-ART DESIGN METHODOLOGIES and strategic problem-solving to deliver enhanced products for its customers. This dedication to excellence and innovation has earned it accolades and recognition both in Australia and around the world.

SUSTAINMENT

- + Extensive Commercial Sustainment experience
- + Composite and Metalwork Specialist
- + Welding – Aircraft Welding Authority
- + Non-destructive Testing
- + Special Processes: Heat Treatment and Protective Coatings
- + Radome Transmissivity Testing per RTCA DO-213
- + Mobile Repair Team

MANUFACTURING

- + Advanced Composite Specialists
- + Welded Sheet Metal and Tubular Structures
- + Ferrous and Non-Ferrous Machining
- + Avionics and Aeronautical products

CERTIFICATION / ACCREDITATION

- + CASA Production Certificate (CASA.145.0095)
- + CASA Part 145 Maintenance Organisation Approval Certificate (CASA.PC1P.0023)
- + ISO 9001:2015, AS 9100D and AS 9110C

Capabilities

At APC Technology, we design, manufacture, maintain and support technology solutions built to last in the toughest conditions.

- Design Engineering
- Product Prototyping
- Contract Manufacturing
- Environmental Testing
- Sustainment & Obsolescence Management
- Product Innovation
- Project Management

Key solutions

Our aim is to conquer the impossible and simplify the complex for our customers that use technology in the harshest environments. We build unwavering reliability and customer confidence into every solution, ensuring success for mission-critical moments.

- Display & Panel PC's
- Consoles
- Message handling systems
- Critical comms
- Uninterruptable power supplies
- Quality of life systems

Key Markets & Industries

Our focus spans several key markets and industries, including local, Asia-Pacific, US, and European regions. Within these geographic areas, we specialize in defense sectors covering maritime, sea, air, land, and space.

Discriminators

- 40 years of proven capability supplying to the aerospace and defence sectors.
- 100% Australian owned & operated; actively sourcing sovereign capability partnerships.
- A state of the art facility of 1650sqm is centrally located
- Extensive in-house environmental test capability
- Rapid adoption of advanced manufacturing techniques and technology.
- Proven design & manufactured solutions to meet MIL-STD and other applicable standards.
- Sustainment and obsolescence management.

Standards

MIL-STD - 461, 704, 810, 901, 1275
DefStan, DO-160
ASGVA

Accreditation

ISO9001:2015

APC Technology

Company

Founded in 2016 by a group of military veterans, Ascent's roots stem from our expertise in Guided Weapons and Explosive Ordnance (GWEO) Engineering, Acquisition and Sustainment. Ascent has grown to over 50 employees around Australia supporting numerous Defence Programs across the Explosive Ordnance and Land domains.

Ascent is one of the few companies in our field that is 100% veteran-owned, 100% Australian-owned, and committed to Raise, Train and Sustain the future generations of Defence GWEO engineers. Through our Explosive Ordnance Graduate Development program, Ascent has established and fostered the careers of multiple new engineers in Guided Weapons, Ordnance, Munitions and Explosives Engineering more than any organisation outside of the Department of Defence itself.

Leveraging our experience as GWEO subject matter experts, Ascent has a strong and growing presence across the wider Defence Industry, Research and Development, Space and Land sectors.

Capabilities

- ✓ GWEO Engineering & Certification
- ✓ Weapons System Integration and Engineering
- ✓ Explosives Training
- ✓ Management Consultancy
- ✓ Program & Project Management
- ✓ Risk Management
- ✓ Systems Engineering
- ✓ Support to Future & Emerging Capabilities
- ✓ Integrated Logistics Support
- ✓ System Safety Management
- ✓ Solid Rocket Motor Research and Development
- ✓ Fuze and Warhead integration
- ✓ Safety and Suitability for Service (S3) assessment

If you would like to add an explosive ordnance kinetic effect to your system or platform - come speak with us!

info@ascentps.com.au | www.ascentps.com.au

Land Division

Competitive Discriminators

- ✓ We are **100% veteran-owned** and operated
- ✓ We are **100% Australian-owned** and operated
- ✓ Representation and offices across **Australia and the United States of America**
- ✓ **We are building a future workforce** and proudly support this through our graduate and undergraduate programs.
- ✓ **High proportion of Veteran employees** who understand and are committed to client outcomes
- ✓ **We understand Defence and ADF needs** - our veteran workforce have lived experience as system operators and managers and motivation to provide the best capability, on time
- ✓ **We have a reputation for "getting the job done"**
- ✓ **A selective employer**, we hire great people and bring on board some of the best people available in the industry
- ✓ **We have highly qualified and experienced staff** boasting 15+ years experience across the breadth and depth of the Defence industry
- ✓ **We are highly accredited** with State, National and Internationally Certified and Accredited Engineers on staff

Certifications & Awards

- ✓ DSS Level 4 Certified for Guided Weapon Engineering, Non-guided Weapon Engineering, Aerospace Systems, Submarine Systems, Systems Integration, Mechanical Engineering, Systems and Software Engineering, Systems Safety Management and Engineering, Technical Publication Authoring and more.
- ✓ DIST Panel Level 1-5 service provider to support DSTG for Aeronautical engineering, Blast Physics, Energetic Materials and Undersea Warfare, Sonar Technologies and more.
- ✓ Defence Industry Security Program (DISP) accreditation
- ✓ Defence Reserves and Employer Support Winner 2021

Research and Development

CorroVision - A Machine Learning and AI-based tool designed for MIL-STD-1530 compliance whilst addressing the issue of unscheduled corrosion

AeroATLAS - A first-of-its kind, aircraft-agnostic Weight & Balance calculation tool targeted specifically for airborne military applications

Energetic Materials - research into industrialisation of energetic materials and precursor manufacturing

Key Land Customers

GWEOG LEOSPO supporting the sustainment and acquisition of Guided Weapons and Explosive Ordnance across all Army platforms including Self Propelled Howitzer, M142 HiMARS, M777A2 as well as all Army owned Configuration Items.

Nioa for Explosive Ordnance Certification of the down-selected L159 ammunition across all chosen platforms.

SOCOM/DSTG/AFHQ for the fuze/warhead assessment for a number of Precision Loitering Munitions such as OWL-B and Hailstone.

Company Overview

Aurizn's mission is to push the limits for a more secure future. We do this through our unique offering of Simulation, Advanced Sensing and Artificial Intelligence capabilities to solve some of the most complex problems facing us today.

We couple our scientific pedigree and engineering know-how to deliver novel and high impact outcomes. With a 150+ strong workforce, we are engaged right across the capability development lifecycle, with a focus on synthetic test and evaluation and technology acceleration.

Using our broad simulation capabilities we provide in-depth visibility into complex procurement, sustainment and operational contexts, with our advanced sensing and artificial intelligence capabilities delivering new technologies and valuable insights.

Our key success is centred on being able to grasp complex challenges and field unique solutions at pace, leveraging our vast domain experience and ability to deliver technology for the ultimate benefit of our customers.

Products & Capabilities

General Vehicle Architecture Middleware

Achieve greater efficiency and interoperability in the design, production, deployment and maintenance of military vehicles using our proprietary middleware solution.

Infinite Studio

Multispectral synthetic scene generation, delivering realistic visualisation, enhanced immersion, improved visual fidelity and accurate radiometric scene rendering.

Immersive Simulation & Training Environment

Immersive dome environment which enables human characterisation, experiential learning, and tactics development capabilities.

Synthetic Test & Evaluation

Comprehensive simulation and integration frameworks and processes to enable end-to-end assessment and evaluation of platform and mission survivability to improve performance, reliability and innovation.

Technology Acceleration

Acceleration of novel sensors and artificial intelligence systems to improve operational capabilities and deliver asymmetric technologies into the field at pace.

Quality Accreditations

- ISO 9001:2015 Quality Management System
- ISO 27001 Information Security Management System
- Standards Australia: AS/NZ IEC 60825 (Laser Safety)

Discriminators

- Largest Australian provider of Electromagnetic Spectrum Synthetic Test & Evaluation products and services
- Experienced in delivering into international programs
- 150+ scientists and engineers with proven experience in delivering high precision systems
- Demonstrated experience in accelerating technology from laboratory to field
- Unique synthetic scene generation product
- Experienced with international export controls
- Security accredited facilities

Key Customers

Capability Statement

Australian-owned systems integration SME Daronmont Technologies has been supporting the Australian Defence Force for 25 years, employing 140 staff and operating primarily in the Defence electronics sector integrating and supporting passive surveillance systems, command and control applications and deployable shelter systems for Australian and Allied export customers. Daronmont designs, delivers and supports hardware and software intensive systems and integrates these into both fixed and deployable solutions. Daronmont has a track record of successful export.

Capabilities

- Broad Systems Integration Capability - Hardware, Software, Mechanical, Security and Mobility
- Deployable Laboratory systems and bespoke deployable enclosures
- Air Battle Management C2 Systems
- Air Traffic Control and Ranges Mobility and C2 Systems
- REALMS Distributed Training, Link 11 and 16 Training Systems
- Engineering Support to DST Group
- 24/7 Support for Remote Communications and Surveillance Systems
- Passive Radar, ESM and HF Surface Wave Radar

Key Customers

- CASG (JSD), DST Group, Army, Australian Border Force, AFP
- Defence Innovation Hub - Passive Radar
- Lockheed Martin - AIR6500
- Raytheon - Woomera remediation
- BAE Systems - JORN Ph 6
- SAAB - SEA 1180 ESM

OVERVIEW

Norseld Photonics delivers leading edge precision optical design, development, engineering, manufacturing and support solutions in Australia.

CAPABILITIES

- **Optical thin films:** our coating Chambers (E-Beam, IBS, IAD, APS, and More) enable us to provide customers with standard coatings in wavelengths ranging from UV and visible to far infrared (IR) as well as more complex coatings tailored to your needs.
- **Diamond turning:** our diamond turning technology can generate complex optical surfaces on a wide range of infrared and non-ferrous materials.
- **Optical manufacturing:** we can produce a full range of optical components including lenses, prisms, windows, laser optics and mirrors.
- **Optical assembly and testing:** we offer dedicated systems analysis, engineering design, prototype, fabrication, and production build to stringent customer requirements.

SHOAL

Our experienced team has led the development of the early-stage design and development for some of Australia's largest and most complex systems.

COMPANY

Shoal is a complex systems design company. We use Systems Engineering combined with Modelling, Simulation and Analysis to help our clients define, analyse, decide, optimise, and deliver technology-intensive projects in complex environments across Defence, Space, Transport, Infrastructure and Energy.

We understand that complexity can rapidly escalate and create pressure on already tight schedules, capability realisation, and budgets. Or all three. Our approach is not to reduce or over-simplify. We embrace the uncertainty in complexity and use our expertise to mitigate risks and capitalise on opportunities.

CAPABILITIES

- Model-Based Systems Engineering (MBSE) across full project lifecycle
- Capability Definition & Design
- Digital Engineering
- Guided Weapons (GW) Engineering
- Operational Analysis (OA)
- Weapons and flight safety, and range analysis
- Electronic Warfare (EW) and signature analysis
- Project / Program Management
- Bid & Capture Support
- Research & Development

COMPETITIVE DISCRIMINATORS

- World leaders in conceptual design of complex systems using MBSE and Digital Engineering
- Highly skilled, systems engineering specialists, experienced across domains
- Australia's highest number of SEP Certified Systems Engineers
- Whole of life cycle design support as an ATL/BTL collaborative partner
- Flexible, distributed team with purpose-built Integration Management System
- R&D Innovation and product development partner

ACCREDITATIONS & AWARDS

Australian Space Industry Awards

- Innovator of the Year, 2022

SOIO

School of Information Operations

The School of Information Operations (SOIO) offers operationally focussed short courses in electronic warfare, undersea warfare (USW), military space operations, maritime operations, cyber security and military uncrewed aerial systems (UAS)

SOIO has a team of 25 instructors with extensive military operational experience to ensure relevance and real-world context.

SOIO can also provide consultancy services in training development and delivery.

Products

SOIO delivers the following short courses:

- Electronic Warfare (EW)
- Undersea Warfare (USW)
- Military Space Operations
- Maritime Operations
- Cyber Security Frameworks and Governance
- Military Uncrewed Aerial Systems (UAS)

SOIO also offers the following long courses:

- Electronic Warfare (EW)
- Electro-Optics (EO)

Discriminators

- Our instructors have over 250 combined years of operational experience
- We have delivered over 150 courses
- We have graduated over 1200 students

Product range

Our range includes fasteners & fixings, abrasives, cutting tools, sealants, adhesives, lubricants, tools, safety, materials handling, petrochemical, military and bespoke fasteners in exotic materials and coatings.

Capabilities

- Our people are technical experts, solution focused individuals, driven to fully understand our customer needs and wants. They have in-depth product knowledge, sourcing experience and quality controls.
- We employ Chartered Professional Engineers who have significant experience in the design and application of fasteners. With consideration given to all supply chain objectives, mitigating risk for all parties. Additionally, our Chartered Engineers are available to work collaboratively with your team upon request, FOC.
- United Fasteners source from over 500 suppliers, across Australia and Internationally (UK, Europe, USA, South East Asia).

Quality approvals & sourcing standards

- We can provide product that conforms to International Standards such as: DIN, BS, NF, ISO, EN, ANSI, JIS & ASTM
- Defence Standards – MS, MIL-DTL, NAS, NSN

Key customers

Discriminators

- **Extensive stock holdings;** Ensures our high level of service and delivery, DIFOT 97.5%.
- **We employ Chartered Professional Engineers;** Work collaboratively with our clients.
- **Family owned and operated;** With over 70 years of operating experience.
- **Relationship management;** We continually review and monitor our processes to maintain and improve our effectiveness and efficiencies, ensuring we deliver on customer satisfaction.
- **Price stability;** We collaboratively forecast future volumes and usages, then negotiate with our suppliers, ensuring we mitigate volatility and inflationary inputs on pricing.
- **Inventory management;** We streamline and simplify purchasing, procurement, materials management, warehousing, maintenance and production processes.

The City of Port Adelaide Enfield

A city that thrives on the strength of its people, values its natural environment, fosters economic prosperity, and creates accessible spaces where everyone can flourish.

The City of PAE is Australia's engine room for shipbuilding and the Defence industry.

Live, work and play just 30 mins from the Adelaide CBD, blending urban charm with history, nature and coastal allure.

Efficient transport links via trains, ships and trucks fuel business growth.

Relax by taking in beautiful landscapes, stunning beaches, and maritime heritage, while enjoying local arts and culture.

*PAE, your vibrant hub
for success in
Defence*

Building capability and performance

As Adelaide's largest owned and operated accounting and advisory firm with extensive expertise in defence, we understand the complexities of the sector. Optimise your financial performance with William Buck.

How we can help:

- Strategic and succession planning
- Merger and acquisitions
- Business valuations
- Financial analysis and board reporting
- Due diligence
- Local branch establishment
- Bank finance
- Tender and contract costing
- Grant application assistance including R&D tax incentive
- Wealth creation
- Budgeting and forecasting

LEADERS, RISE

The Defence Industry Leadership Program (DILP) has played a pivotal role in nurturing the personal and professional growth of more than 300 defence industry leaders since its establishment in 2010.

Within the context of the rapidly evolving Australian defence landscape, the demand for adept, forward-looking, and collaborative leadership has never been greater.

DILP is a nine-month immersive leadership program co-ordinated and delivered by the Defence Teaming Centre (DTC) in collaboration with registered training provider, SkillsLab, a SAGE Group company. This comprehensive program is designed to nurture and elevate core leadership abilities within the distinctive context of Australia's defence industry.

Registrations for the 2025 intake are now open and places are limited. Scan the QR code for more information.

DEFENCE INDUSTRY LEADERSHIP PROGRAM

Growing leadership capability
in Australia's defence sector.

AISA SA - Measuring Systems -

AISA SA offer sales of measuring systems **fixed** and **portable** that accurately measure manufactured products from Nanometre size to beyond 80 meters in distance with great accuracy.

Our end to end services range from consultancy through to project delivery and life cycle product support.

Supplier of Advanced Measuring Systems

CMM's

Virtek Vision
Laser Positioning and measuring

- Over 25 years of experience in supplying measuring equipment to the manufacturing industry
- Local sales and service office that offer direct support to customers
- Strong focus on customer requirement satisfaction to the point of excellence
- We are an effective conduit to increase Australian Industry Content
- Strong Partnering experience with other local engineering contractors , service providers and overseas suppliers
- Extensive network to original manufactured measuring equipment suppliers
- 100% Locally owned and more than 10 years in Australia

Core Technologies - Supply and Service of our Accurate Measuring Systems

- CMM's
- Portable Measuring arms
- 3D Laser trackers and scanners
- Laser Projection systems for welding assembly and measuring tasks
- Testing equipment
- Hardness testers
- Hand held measuring equipment
- Many more

HARDCAT SOLUTIONS ARE BATTLE-TESTED TO ENSURE THEY MEET AND EXCEED THE TOUGHEST EXPECTATIONS FROM DEFENCE FORCES

- Rapid issue of assets to ensure operational efficiency is not compromised
- Classified material accountability
- Ammunition administration
- Aircraft detachment pack-up kit inventory
- Engine maintenance tool control program
- Life-saving equipment inventory and maintenance
- Shipboard tool issue and audit
- Hazardous material control
- Centralised data repository with restricted views
- Disconnected state asset management for high security environments
- Configuration capabilities of our system allows expansion into any asset type without a requirement for expensive and time-consuming support requirements
- Enhanced asset and inventory tracking with complete visibility of all issued items
- Usage trend analysis to determine how assets are used to assist with planning for retiring and replacement of assets
- ISO 55000 certified - generate comprehensive reports on the entire history on all assets including associated costs and record of all activities thus meeting regulatory compliance obligations and fulfilling governance requirements

Hardcat solutions empower defence forces with greater availability and performance across its platforms ensuring the assets are ready when and where they are needed. Our solutions leverage over 10 years of working with defence forces and continue to deliver superior value

HARDCAT
Delivering Asset Certainty

Don't just take our word for it. Hear it from our clients in the industry, who've used Hardcat and benefited greatly.

Prime Systems Integration

Indra Australia specialises in high-end Project Management and Systems Engineering. Indra Australia offers expertise in the integration of complex MOTS/COTS configurations, including secure communications and data management. We offer many solutions including an integrated Air Defence solution incorporating the 3D Lanza Radar Family, Electronic Defence, Command and Control (C4I) and C-IED and CBRNe solutions. We specialise in the complete design and integration of complex systems adapted to the specific needs of the client.

Air Traffic Management Systems

Indra Australia is a market leading supplier of air traffic management and communications, navigation and surveillance (ATM-CNS) solutions. Our radar, ATM automation, C2, navigation and voice communication systems are developed specially for both civil and military air traffic control applications. The system's architecture is designed to easily adapt to client needs within the air traffic management and air battlespace management environments. Indra Australia is a major supplier to Air services and the ADF for ATM equipment and a dominant supplier of Navigation Aids within Australia and the South Pacific region.

Shelters - Deployable

Indra Australia designs, develops, manufactures and supplies all types of deployable infrastructure in hard and/or soft configurations for all applications. Solutions meet the most demanding Defence transportation (via Air, Rail, Road and Sea), security and EMI requirements. Indra has proven experience with all interfaces such as power, water, ICT connectivity, waste management etc. Indra Australia's HQ has accreditation to operate as a Zone 4 security facility and we have delivered deployable solutions accredited to Zone 3. Indra Australia has multiple deployable capabilities currently in operational service with the ADF.

CBRNe - Chemical, Biological, Radiological, Nuclear & Explosives

Indra Australia has a global presence in the CBRNe domain. Our approach to CBRNe systems is focused on adding value through integrating CBRNe subsystems with command and control systems and networks. Our solutions provide protective measures including passive protection, contamination avoidance and weapons technical intelligence. Indra has extensive experience in the design and manufacture of mobile CBRNe Laboratories, portable equipment and vehicles. Indra has deployed these systems globally in operational environments.

PROVEN IN TOUGH ENVIRONMENTS

Codan | Domo Tactical Communications (DTC) specialises in the design, manufacture and support of highly reliable radio communication solutions. Codan's DTC Division provides MANET Mesh IP radios typically used in Integrated Soldier Systems, Uncrewed Systems, and Naval Platforms.

100% AUSTRALIAN OWNED

Market leader with

- ▶ Cradle to grave sovereign capability
- ▶ Field Proven, Non-ITARS technology
- ▶ Military-hardened waveforms (LPI/LPD, Hopping, Crypto)
- ▶ Military-standards compliant (MIL-STD-810, MIL-STD-461)
- ▶ Low SWaP (Size, Weight and Power)

Our solutions

Uncrewed platform (UxV) IP Mesh Data links for:

- Control, sensor data and video streaming from all platforms
- Remote Weapon Station (RWS)
- Uncrewed Ground / Air / Surface Vehicles
- Explosive Ordnance Disposal Robots (EOD Robotics)

Dismounted and Mounted Soldier Software Defined Radio (SDR) capabilities for:

- Soldier modernisation for armed forces
- Naval (Boarding party, Ship to Shore, Maritime Interdiction)
- Covert operations, Sniper/Spotter Teams
- Voice communications (HF/VHF/Multiband) – Man-portable and Vehicular

Interoperability solutions:

- Radio-over-IP (ROIP) Gateways

Codan is Australian owned and headquartered, designing and delivering radio communications to customers worldwide for over 60 years.

EZY-FIT ENGINEERING GROUP PTY LTD

Designer, Developer, Manufacturer of World Class Hydraulic Cylinders.

Company Overview

Ezy-Fit is a leading Australian designer and manufacturer of hydraulic cylinders from as small as 38mm diameter up to 1 metre diameter and 15 metres long.

Industries served include: Marine, Defence, Mining, Oil & Gas, Subsea, Offshore, Megayachts, Agriculture, Elevated Work Platforms & Lifting Systems.

Discriminators

- In-house Engineering and Design; we work collaboratively with you to ensure we deliver the right hydraulic cylinder for your unique requirement
- Over 10,000 unique hydraulic cylinder designs in our library: Proven capability
- Large capacity machining capability: Longest honing capability in the Southern Hemisphere - up to 15m
- Marine Classification Approvals from DNV-GL and ABS
- Over 30 years in operation

Capabilities

- 19 CNC machines, 7 manual machines running an average of 70% capacity - room for growth
- 5 Axis CNC Milling - up to 6m x 1.1m capability
- 7 axis CNC Turning - up to 1m diameter x 7.8m between centres
- CMM Inspection - 1.5m x 3m x 1m
- Over 6000 SQM undercover including large loading/unloading dock area
- Contract manufacturing: Build to print prototype to production capability from a wide variety of metals and plastics
- Light Fabrication and Welding: Certified welders and procedures

Certifications and Accreditations

- ISO9001-2015 Accreditation
- DNV-GL Workshop Welding Approval
- ABS - Certificate of Product Design Assessment

**Think Global.
Trust Local.**

NHP is an independent, Australian owned company which has been providing electrical and engineering industry excellence for 55 years. We source best in class electrical and automation products from across the globe to deliver to the local market.

With branches across the length and breadth of Australia and New Zealand, it is NHP's local people and footprint that helps us to understand your specific project needs, allowing our customers to think global and trust local.

As the exclusive distributor for Rockwell Automation throughout the South Pacific region, NHP provides SMART digital devices which deliver better visibility into processes, data and analytics. By enabling smarter and faster decision making and seamless connectivity spurring new collaboration, NHP is enabling the Connected Enterprise.

When it comes to finding a local partner with a global network for your next project, choosing NHP will unlock a world of expertise across electrical and automation products, systems and solutions.

Innovative Composite Products and Solutions for Critical Processes

ABOUT US

Novafast is an Australian company providing high end composite technology for critical processes. With a focus on product and manufacturing development using industry 4.0 practices, Novafast is an IP creator of its own products and the only Australian GRE pipe manufacturer to carry out testing on composite pipes to ISO14692:2017 standard.

Novafast specialise in the following products for the Defence and Marine sector:

- NovaFlo 2000 GRE Pipe and Fittings
- Composite Decks and Panels
- Composite Radomes and Masts
- Epoxy Coatings and Corrosion Resistant Materials
- Deluge and Ballast Systems
- Storage Tanks

DISCRIMINATORS

- South Australian owned and operated
- In-house engineering team with more than 20 years' experience in composite products and solutions for critical processes
- On-site accredited testing facilities
- DISP member
- Full supply chain supply and support

CAPABILITIES

- Full product cycle offering > Manufacture > testing > project management > service > training
- Able to meet all major industry standards
- Manufacture pipes from 25mm to 4000mm in diameter utilising current robotic technology

CERTIFICATIONS/ACCREDITATIONS

- ISO 9001:2015
- ISO14692:2017
- IMO (International Maritime Organization)
- Lloyd's Registration
- Australian Made Certification
- Bureau Veritas

Description

Piper Alderman has a long and proud connection with Australia's Defence industry. We were a founding member of the Defence Teaming Centre, and Piper Alderman lawyers have served on the DTC Board for over 16 consecutive years.

We have the defence specialist experience required to service both industry and government.

Piper Alderman has the capability, accessibility and expertise needed to help companies understand and respond to major requests for tender. Our lawyers regularly advise on multi-million dollar property and corporate acquisition deals within the Defence sector, and understand the regulatory environment that Defence industry companies operate in.

We identify and manage key risks, and ensure our clients are equipped to achieve their goals and obligations, all with the sensitivity that this industry demands. We know that time is of the essence, that requirements move rapidly and that experience matters.

Capabilities

- **Strategic legal advice in all major practice areas** – including projects & infrastructure, finance, intellectual property & technology employment, dispute resolution & litigation, corporate and commercial.
- **Defence specific legal expertise** – ITAR, EAR and other export controls, ASDEFCON template suite, procurement and regulatory;
- **National reach** – Offices in Adelaide, Brisbane, Melbourne, Perth and Sydney, with 400 staff and a 80 strong partnership.

Discriminators

- Experienced on advising on large scale Defence projects, ASDEFCON and defence procurement, ITAR and other export controls;
- Clients Government, Primes, SMEs, consultants and Individuals;
- Strong connection to industry – partners with specialist knowledge regularly provide training seminars to industry, security-cleared Defence staff, and understand the sensitivity that industry demands;
- Member of Defence Teaming Centre, connection with Australian Industry Defence Network and regularly collaborate with tertiary sector defence research units.

CORE COMPETENCIES

- Proprietary manufacturing process to achieve optical transparency
- Composite fibre structural design and manufacture
- Product design to maximise solar power generation for land, sea & air applications
- Research & Development to customise materials science properties

DISCRIMINATORS

Unique solar technology delivers:

- Optical transparency through composite fibre materials
- Customisable structural properties: low weight, rugged and toughened
- Range of surface finishes available: matt black, polished, non-skid
- More power per vehicle: increased solar density and solar coverage

PRODUCTS

Praxis has developed four solutions tailored for the unique requirements of mobile power generation:

- **Tactical Solar**: ruggedised solar for Defence applications
- **Aero Solar**: light weight and thin solar forms part of the wing structure
- **Structural Solar**: for design integration as part of the vehicle structure
- **Mobile Solar**: for retrofit onto a vehicle

CUSTOMERS AND PARTNERS

Working on a range of applications including UASs, USVs, Tactical Vehicles and Soldier Systems

Partnered with Flinders and The University of Adelaide to develop state of the art coatings for new applications

"world's lightest & toughest solar technology on the market"

We leverage world-class technology, empowered by our team of engineering experts, to thrive in mission-critical environments.

CAPABILITIES.

- Proven experience designing and manufacturing electronic products for the last 45 years
- Advanced electronics manufacturing in a world class, quality-controlled environment
- Full capability life cycle support for electronic products, including integration
- Build to specification, design or print in our high-volume production facility
- Test and Validation capabilities including EMC, EMI, Vibration, Shock and Environmental

DISCRIMINATORS.

- Sovereign manufacturing capability, 100% Australian owned and operated
- Manufacturing partner of choice to defence and space primes
- Proven track record of Delivery in Full on Time to Global OEMs
- Secure manufacturing facility
- Continuous investment in product and process R&D

PRODUCTS.

- DC power management and distribution
- Power suppliers and converters
- Dual Battery & Charging Systems
- REDARC Thermal Signature Enhancement Kits (RTSEK)
- Monitoring Systems (HUMS)
- Maritime LED lighting

Member of the SGS Group

Redback™ Drilling Tools and Manufacturing is part of the SGS Group and a leading designer and manufacturer of precision machining equipment in Australia.

Current as at: May 2024

Products

- Enclosed bearing rotational components
- Flanged and speciality threaded components
- High Precision CNC Turning
- High Precision CNC Milling and Machining Centres
- Welding
- Non-Destructive Testing
- Engineering and Designs
- Inspection & Repair
- New Manufacturing

Discriminators

- Onsite Engineering design team
- Global Capabilities, Local Expertise
- Extremely high-quality product output
- Robotics-driven advanced manufacturing facility
- Custom design capabilities to AS/NZS and client requirements
- Over 40 years of operations supplying and supporting customers throughout Australia and Globally
- Quality Assurance inspection team
- ISO Accredited supplier

Capabilities

- Design and manufacture large-scale precision-machined equipment
- Specialists in high-durability piping, shafts and tubular components
- In-house engineering team undertaking research and development, manufacturing and custom engineering design.
- Dedicated Non-Destructive Testing (NDT) team
- 12 Independent Machining cells Wingfield SA Facility
- Machining Services – Robotic CNC machines, Manual Laiths

Quality & Associations

- ISO 9001
- DTC Training Membership
- API Certified

Delivering agile and innovative solutions for Defence and industry

SAGE Group is a global company with an extensive national footprint and 700+ people. As an integrated industrial digitalisation service provider, SAGE has a suite of solutions designed to support clients to accelerate their digital journey and unlock potential with the perfect balance of technology, process and capability.

CONTACT

Adam Kiryk
Head of Defence

M +61 (0) 400 900 674
E adam.kiryk@gotosage.com

CAPABILITIES

- > Proven capability in delivering agile, innovative and fit-for-purpose electrical and control systems to stringent defence requirements for Defence Primes, OEMs and SMEs.
- > We proudly embrace sector diversity, enabling us to not only 'meet' the industry's rigorous demands, but exceed them.
- > SAGE has a leading edge advanced manufacturing centre located at Tonsley, South Australia.
- > As a system integrator, we utilise where possible, COTS and/or MOTs components, to deliver appropriate and maintainable solutions.
- > SAGE is one of the largest sovereign suppliers of systems engineering, training and through-life support services for Defence assets Australia wide.

DISCRIMINATORS

- > Proven track record in supporting global defence companies delivering projects and services.
- > Vendor independent with reliable and robust worldwide supply chains built from more than 25 years' experience.
- > Expertise to collaborate with you and recommend the best solution for your requirements.
- > SAGE adheres to global best practice systems and processes. Our design process is rigorous and our testing regime is comprehensive.
- > Robust quality and management systems underpinning the entire SAGE business.
- > Established national workforce providing critical mass with great breadth and depth of in-house skills, and a can-do attitude.

WORKSEC

WorkSec's **Trusted Workforce** program is building an industry talent pool of skilled, security-cleared, Government & Defence-ready personnel to deliver Australia's **sovereign capability**.

Key Customers

- **DISP Members**
Prospective, new or existing DISP members requiring personnel security governance uplift.
- **Small, Medium & Enterprise Businesses**
Requiring employee screening, vetting, clearance sponsorship or personnel security governance to service Commercial, Industry, Government or Defence.
- **Labour Hire & Recruitment Agencies**
Seeking skilled, security-cleared, Government & Defence-ready personnel.
- **Individuals & Contractors**
Requiring an ACSIA security clearance to fulfill a Designated Security Assessed Position (DSAP).

WorkSec services clients Australia-wide, as well as international organisations employing Australian citizens.

Key Partners

Core Capabilities

- **Employment Suitability Checks**
Risk-based screening & assessment in alignment with AS 4811:2022.
- **Security Clearance Sponsorship**
Baseline, NV1 & NV2 sponsorship for eligible & suitable individuals.
- **Security Officer as a Service (SOaaS)**
Outsourced personnel security governance for Defence & Government contractors.
- **Employee Referral Services**
Recruitment referrals to skilled, security-cleared Government & Defence-ready personnel.

"Thank you so much, I could not be happier. It has been an absolute pleasure dealing with WorkSec."

The process you have in place is first class, I could not fault it."

- Trevor (VIC)

Discriminators

- **Experienced Team** - Our security officers are highly experienced, having facilitated security clearances for over 3,000 clients. Our depth of experience ensures clients benefit from knowledgeable guidance throughout the life of sponsorship, ensuring high levels of compliance.
- **Extended Support Hours** - Our staff are available outside of standard business hours, offering support 7 days a week to assist sponsored clients with their clearance & personnel security queries, providing help at convenient times and expediting the clearance process.
- **High Touch, High Automation** - Our systematised and automated workflows offer an optimal and seamless client experience, minimising manual errors and delays, freeing our experienced human capital to provide personnel security advisory where it is most needed.
- **Continuous Improvement** - We are continuously and iteratively improving our operational and governance systems to meet and exceed compliance with regulatory frameworks including the PSPF and DSFP, as well as predicting future controls.
- **Security & Privacy** - We maintain physical & information security systems to an exceptionally high standard, emphasising strong policies and processes around privacy, data security and handling of official sensitive information and your personal information.
- **Comprehensive Service Offering** - We are passionate about delivering our high-touch service to a diverse range of clients, including individuals, recruiters, SMBs, and large multinational companies. This broad service offering is a testament to our capability to handle personnel security and governance needs at any scale.

Australian Defence Consultancy Group

ADCG was founded in 2009 and is one of the largest firms of our kind ensuring employees and sub-contractors are security cleared and Defence and Government Ready to win business in this rapidly evolving market. We support Industry by providing the full suite of Defence Industry Security Program pillars assisting companies to obtain DISP Accreditation with a particular focus on facilitating sponsorship and through-life governance and management of Australian Government and Defence Security Clearances.

We have sponsored over 4,200 individuals and organisations with their Security Clearances.

Our Nuclear Consultancy Group has a reach back into a growing pool of over 2,500 former US and UK Navy Nuclear experts.

ADCG's expanding network of expertise from across the Nuclear ecosystem are eager to support AUKUS

CAP ABILITIES

- Nuclear-Powered Submarine Masterclass 101 / 102:
 - 101: focuses on enhancing your understanding of nuclear-powered submarines and demystifies new nuclear terminology
 - 102: focuses on nuclear conventions, the nuclear supply chain, how to upskill the nuclear workforce, and how to gain a social operating licence
- Nuclear Consultancy
- Facilitation of Security Clearance applications to AGSVA and Sponsorship
- Governance and management of Security Clearances at Baseline, NV1 and NV2 for individuals and organisations
- Employee Screening Checks (ESC) which meet the Australian Standard
- Strategic Consultancy Group
- Contracting / Consulting Services, matching people and jobs

DISCRIMINATORS

- 11 x Security Officers who are Subject Matter Experts in the security clearance application process through AGSVA
- Through-life security clearance aftercare and management
- Responsive, extended hours support
- Alliances with complementary Subject Matter Experts
- Vast network of security cleared consultants and personnel
- Network of SQEP individuals from across AUKUS nations

KEYCUSTOMERS

- Individuals looking for work in Defence and Government Industry
- Businesses seeking DISP Accreditation
- Recruiting organisations
- Contracting organisations
- We support Amazon, Google, Salesforce, Rolls Royce, Mitsubishi Electric, Ericsson and more than 170 SME/SMB throughout the Defence Supply Chain

KEYMARKETS

- Australia-wide service
- International clients
- Defence, Government and Industry

QUALITYAPPROVALS

Defence Industry Security Program (DISP) accreditation at Level 3 for Personnel Security and Governance

ADCG-Nuclear Consultancy Group Presents Nuclear-Powered Submarine Masterclasses

ADCG's Nuclear Consultancy Group has been working hard to support the Australian Submarine Agency, state and local governments, the defence industry, and academia in making AUKUS Pillar One a successful reality. ADCG has produced two Masterclasses on Nuclear-Powered Submarines (NPS) and the Nuclear Ecosystem.

- The first Masterclass focuses on enhancing your understanding of nuclear-powered submarines. It covers operations, differences from conventional submarines, nuclear terminology, and details how to achieve a social license to operate them.
- The second Masterclass complements the first one by discussing the integration of nuclear submarines in Australia, including Australia's existing nuclear foundations, the global rules and regulations in force, and how to enhance the skills of the Australian 'nuclear' workforce.

Together, these courses provide a comprehensive one-day introduction to what you need to know to support NPS, maintain NPS, and join the global nuclear supply chain.

To learn more visit our website
and send us an enquiry.

Consultancy Services

ADCG facilitates access to sponsored, Security Cleared personnel with an array of relevant experience, knowledge and skills

Security Clearances

ADCG sponsors Australian Government and Defence Security Clearances at Baseline, Negative Vetting 1 (NV1) and Negative Vetting 2 (NV2)
